

Water level Controller Indicator Model:WLI 400

Technical Specification:

- Input Supply Voltage: 230 VAC 50 Hz
- Operating Voltages: 200 - 260 VAC. 50 Hz
- Temperature: 5 to 60 °C
- Dimension (LXWXD): 230X170X50 mm
- Mounting: Wall Mounting
- Enclosure: Sheet metal power coated box
- Weight: 900 gms. Approx

Features:

- Tank Level Indication: Five level visual indications - 20%, 40%, 60% 80% and 100%.
- Water Level Indicator with Low & High Level Alarm (Buzzer 1 Minute continues "ON" after it off again Minute continues 10 Sec buzzer ON/OFF)
